

HOME EMERGENCY QUICK REFERENCE

Fill it out now. Find it fast when something goes wrong.

IMMEDIATE DANGER?

Leave and call 911 from safety. Do not delay for photos or shutoffs.
If you cannot escape safely, call 911 and give your location.
Follow emergency instructions.

PEOPLE

Protect people

GET HELP

Call the appropriate
emergency / service help

LIMIT DAMAGE

Only when safe;
water guidance below

DOCUMENT

Once stable and
safe to access

REPAIR

Plan permanent
repairs

KNOW YOUR HOME

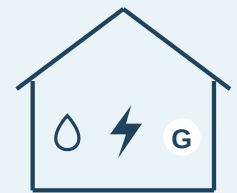

Mark these before an emergency.

Home address

Main water shutoff location

Electrical panel location

Gas equipment location (reference only)

Plumbing leak: use a known household water shutoff only with safe access.
Leave gas controls and unsafe electrical access to professionals.

WHO TO CALL

Save these numbers in your phone, too.

Emergency / 911

Gas utility

Water utility

Electric utility

HVAC company

Plumber

Electrician

Roofer

Homeowners insurance

Policy / claim number

IF SOMETHING HAPPENS

Once everyone is safe and the situation is stable, record the basics.

What happened?

When did you notice it?

Who did you call?

Service / claim reference #

WATER + POWER

Stay out of standing water
near electrical equipment.

GAS / CO / FIRE

Leave and call 911 from safety.
Stay out until responders allow return.
